CAREER OBJECTIVE

Final-year B.Tech student specializing in Computer Science Engineering (AI & ML) with strong skills in AI/ML, Generative AI, web development, real-time applications, and software development. Completed a 3-month AI Engineer internship at Arah Infotech, where I developed Hire IQ, an AI-powered interview platform, and worked on AI calling, testing, debugging, monitoring, and workflow integration. Passionate about building scalable, user-friendly, and AI-driven applications. Seeking an entry-level AI Engineer, AI/ML Engineer, or Software Engineer role where I can apply my technical skills, solve real-world problems, and continue growing professionally.

TECHNICAL SKILLS

Programming Languages:	Python, TypeScript, JavaScript, Java
Web Technologies:	HTML5, CSS3, Next.js, Node.js, FastAPI, Firebase, WebSockets
AI/ML Concepts:	Data Preprocessing, Predictive Modeling, Generative AI Basics, Computer Vision, NLP
Tools & Platforms:	GitHub, Git, VS Code, Vercel, Netlify, PythonAnywhere
Soft Skills:	Teamwork, Communication, Problem-Solving

EXPERIENCE

Arah Infotech

May 20, 2026 – August 26, 2026

AI Engineer Intern

- Developed **Hire IQ**, an AI-powered interview platform, and worked on AI calling agent integration, interview workflows, webcam and screen recording, live monitoring, approval workflows, OmniDimension synchronization, testing, debugging, and performance optimization.
- Successfully completed the internship on 26 August 2026 and received an internship certificate.

PROJECTS

Hire IQ

- Developed an AI-powered mock interview platform utilizing webcam lip-tracking, anti-cheating monitoring, and dynamic question generation.
- **Tech Stack:** TypeScript, Next.js, FastAPI, MediaPipe, Vercel

Automated Exam Evaluation System

- Engineered an AI-based system to automate the evaluation of descriptive exam answers using Natural Language Processing (NLP).
- **Tech Stack:** Python, NLP, Machine Learning

QR Based Attendance Management System

- Built a secure management system for tracking student/employee attendance via dynamic QR code generation and decoding.
- **Tech Stack:** HTML, CSS, JavaScript, Python, Firebase
- **Project Link:** <https://4bhaygupta.pythonanywhere.com>

Jewellery Website

- Developed an e-commerce storefront for displaying jewelry collections with an intuitive user interface and product galleries.

- **Tech Stack:** TypeScript, Next.js, Tailwind CSS

Aura Draw

- Created an interactive, web-based digital drawing application featuring a customizable canvas and real-time rendering.
- **Tech Stack:** TypeScript, React, HTML Canvas

Portfolio Website

- Designed and deployed a responsive personal portfolio to showcase software projects, skills, and resume.
- **Tech Stack:** TypeScript, Next.js, React, CSS
- **Project Link:** <https://abhayqr.site>

Birthday Surprise Website

- Created a responsive digital greeting card featuring interactive animations and modern UI effects to celebrate special events.
- **Tech Stack:** TypeScript, HTML, CSS, GSAP

EDUCATION

Mahaveer Institute of Science and Technology, Hyderabad

2023 - 2027 (Expected)

B.Tech in Computer Science & Engineering (AI & ML)

Sri Vaishnavi Junior College, Hyderabad

Completed: 2023

Intermediate Education (MPC) | CGPA: 7.5

SR Digi School

Completed: 2021

SSC | CGPA: 9.3

CERTIFICATIONS & ACHIEVEMENTS

- Arah Infotech AI/ML Engineer Internship Completion Certificate (May–Aug 2026)
- 1st Prize Winner - Design Freaks, Technomist 2K25
- Artificial Intelligence Fundamentals - IBM SkillsBuild (Mar 2025)
- Craft Precise Prompts for AI Models - IBM SkillsBuild (Aug 2026)
- AI Literacy - IBM SkillsBuild (Aug 2026)
- Project Management Fundamentals - IBM SkillsBuild (Aug 2026)
- Communication Skills - TCS iON (Aug 2026)
- Career Management Essentials - IBM SkillsBuild (Aug 2026)
- Participated in Generative AI Workshop and AI Model Building Workshop by NxtWave
- Participated in Cyber Security & Ethical Hacking Workshop (2024)
- Participated in National Start Up Day 2024
